

DR. HYDE IS CONVICTED OF MURDER

DR. HYDE CONVICTED OF MURDER IN FIRST DEGREE IMPRISONMENT FOR LIFE

Convicted Man Calm When Verdict Given--Wife and Sisters Wept as They Heard Dread Announcement

KANSAS CITY, May 16.—D. Bennett Clark Hyde today was convicted of murder in the first degree and given a life term in the penitentiary for killing Colonel Thomas H. Swope of Kansas City, the millionaire philanthropist. The conviction and sentence was the climax of one of the most sensational murder trials in the history of Missouri. The jury which brought in the verdict has been out since last Friday night.

Great crowds gathered when it became known that a verdict had been reached. Dr. Hyde's wife and two sisters were present. They expected acquittal.

Hyde was apparently unmoved when the verdict of first degree murder was read. Mrs. Hyde burst into tears and was led sobbing from the room. The jury, which has the power to fix the punishment, declared for a life sentence. Dr. Hyde was taken to the room where his wife was waiting and tried to comfort her. Her sobs sounded through the courtroom. Hyde's sisters broke down and wept. It is expected an application will be made for a new trial.

The jury returned the following verdict at 10:22 o'clock: "We find the defendant guilty of murder in the first degree as charged in the indictment, and assess his punishment as imprisonment in the state penitentiary during his natural life."

It became known that the majority of the jury favored Hyde's conviction from the beginning.

Astronomers in Predictions On Halley's Comet

NEW YORK, May 16.—Calculations and predictions concerning Halley's comet by the world's leading astronomers, collected here today are as follows:

Prof. Andrew Commelin of Greenwich observatory, "no probability of any effect upon the earth."

Prof. Michael Giacobini of Paris observatory, "the gases are so attenuated that there is no probability of danger from the comet. However, the case is obscure in history and we cannot tell. We may expect a magnificent spectacle."

David Gill of the British Royal Astronomical Society, "I expect only a faint illumination."

E. E. Barnard of Yerkes Observatory, "It won't affect the earth."

Prof. J. W. Schaebele of the University of Michigan, "all predictions are purely speculative."

Prof. A. O. Leuschner of the University of California, "no effect except brightened skies."

OPENING DAY IS MAY 30TH

Santiago Golf Club Course in
Good Shape—Things
Look Good

May 30 has been selected by the Santiago Golf Club as opening day. The members and their friends, and, in fact, everyone interested in the game, are invited to attend the opening.

The course is in good condition. The club house has been fitted up as good as new, and things look good to those who have been out of the game since the club disorganized several years ago. There are nine greens in the links. Each green has been treated with oil.

Bogey for the course is 36. F. B. Browning made a score of 42 yesterday.

TAOS INDIANS ARE NOW UNDER ARREST

Federal Troops Recalled—Indian Followers Return to Reservation

SANTA FE, N. M., May 16.—The leaders of the Taos Indian outbreak are under arrest today, and their followers have returned to the reservation. The order for Federal troops to proceed to the scene of the trouble has been rescinded. Local authorities are in complete control of the situation.

OUTLOOK GOOD FOR Y. M. C. A. BUILDING

UPLAND, May 16.—Encouraging progress is reported in the raising of funds for the securing of a site and the erection of a home for the local Y. M. C. A. One man has subscribed \$1000 and has given the promise of an additional \$500, providing a certain sum is raised for the purpose. Several promising sites are under consideration.

LAST THREE DAYS' PERMITS AGGREGATE SUM OF \$22,500

Since last Friday morning Deputy Building Inspector Stone has issued building permits aggregating \$22,500. Among them is a permit for a new brick building for the Titus Stock Remedy Co., a local institution that has gained a coast-wide reputation for its products.

The permits issued are: To the Titus Stock Remedy Co., with A. C. Black, contractor, two-story brick at

TAFT TOLD LAWLER TO WRITE DRAFT OF LETTER CLEARING BALLINGER

Also Admits "Back Dating" By His Order—Kirby Dismissed—Ballinger Does the Bouncing Act

WASHINGTON, May 16.—Frederick M. Kerby, the stenographer in the interior department whose statement on the "Lawler memoranda" was given to the public by the United Press Saturday, was dismissed from the government service today by a special delivery letter sent to his home and signed by Secretary Ballinger. The letter stated that he was dismissed "because he was unworthy to remain in the service."

KERBY'S LETTER BROUGHT STATEMENT TO COMMITTEE

WASHINGTON, May 16.—A new phase of the Ballinger investigation appeared today when Frederick Kerby, the discharged stenographer, declared the interior department had been informed by teletype that his statement was to be published.

Stenographer Massey, who helped in the preparation of the "Lawler memoranda" sent to him to learn if the report were true. Kerby affirmed that he had given his statement to the United Press. Three hours later, Kerby said, the statement was in the hands of the investigating committee which had been trying to get it for many weeks. Attorneys for the prosecution it was announced will attempt to learn if the Attorney General, whose statement was given to the committee and other officials, were influenced by Kerby's statement.

TAFT ORDERED LAWLER TO MAKE DRAFT OF LETTER

WASHINGTON, May 16.—President Taft last night issued a sweeping statement explaining in detail the

charge made by F. M. Kerby, a confidential stenographer in the office of Secretary of the Interior Ballinger, that the letter of last September exonerating Secretary Ballinger was written by Assistant Attorney General Lawler. The president declares that in the ordinary course of business, after he had made a full investigation of the Glavis charges against Mr. Ballinger and had reached a conclusion, he requested Mr. Lawler to prepare for him a statement in line with those conclusions. The statement thus prepared, the president declares, was not satisfactory in several particulars, notably in the respect that it contained unnecessary references to Gifford Pinchot and Louis Glavis; whereupon he, the president, dictated a new letter, in which but one or two paragraphs of the Lawler draft were embodied. The president also declares that he directed Attorney General Wickersham to "back date" his summary, as his opinion had been given prior to the president's letter.

In explanation of this course it is pointed out that it is the invariable custom in department matters, after a decision has been reached based on a consideration of all the facts, to have a statement or resume prepared for the convenience of the president by an official who is conversant with all the details of the case as well as with the decision that the president has reached.

The president's statement is in the shape of a letter to Senator Knute Nelson, chairman of the joint committee which is investigating Secretary Ballinger.

PLACERVILLE FIRE CURBED

\$100,000 Damage—Fire Subdued This Morning—Everybody Fought Flames

SACRAMENTO, May 16.—Dispatches from Placerville state that a fire which threatened the entire town was controlled at 3 o'clock this morning, after damage aggregating \$100,000 had been done.

Scores of men, women and children fought all night against the flames. Preparations had been made to dynamite the buildings in the fire's path, but this was unnecessary.

The Odd Fellows building, the courthouse and one smaller building were destroyed. Many records were burned in the courthouse, but the most important ones were saved.

WILL SETTLE IT THIS WEEK

Struck and Smith Said to be Out Seeking Place on the County Board

This week will doubtless determine who will be appointed supervisor to fill the vacancy on the Board of Supervisors caused by the death of Dr. D. A. MacMullen. Doubtless the recommendation of the Republican county central committee will settle the matter, and a meeting of that committee will be held soon.

There are now two candidates for the appointment, Fred Struck, who has announced himself as a candidate for the nomination at the August primaries, and A. R. Smith, manager of Ehlen & Grote's store at Orange. A. C. Newell has been mentioned, but no effort seems to have been put forth by him or his friends to secure the nomination. Struck is busy, and several men who are in a position to judge the situation say that it looks as though Struck would get the recommendation.

KLAMATH FALLS, Oregon, May 16.—Smoking ruins mark the spot where the village of Bonanza recently stood. Every building, including five stores, two hotels, a barber shop, saloon and postoffice, were destroyed by fire last night.

Witnesses in 2 Bribery Cases Are Fought For

CHICAGO, May 16.—The legislative bribery scandal threatens to develop into a battle between the deputies of Cook and Sangamon counties to corral the important witnesses.

The case of Lee O'Neil Brown is scheduled to begin in Chicago today and Springfield prosecutors, where an investigation of other alleged bribes in connection with the election of United States Senator Lorimer is planned, are after the same witnesses that are to testify in the O'Neil case.

District Attorney Wayman says he will secure a writ of habeas corpus to prevent the removal of his chief witnesses to Springfield. Deputies are guarding them on the streets to prevent a flank movement of rival prosecutors.

Illness Stops O'Neil Trial

CHICAGO, May 16.—The trial of Lee O'Neil Brown, on an indictment charging him with bribery in connection with the Lorimer election scandals, has been postponed one week because of the illness of the daughter of Attorney Patrick O'Connell, defendant's counsel.

EXTENSION TO COMPLETE IT

Five Days More for the Census
Taking—Have You Been Counted?

Again, let the question be asked: Have you been counted?

The taking of the census in Santa Ana did not close Saturday evening. When night came on, the enumerators found that they still had some work to do. Census Supervisor King of Redlands, was asked to grant an extension of time to complete the work, and five days was granted.

So, if you have not been counted by the census men, you have until Thursday evening in which to get your name upon the rolls.

See that it gets there. Be absolutely certain that it is there. Telephone N. A. Elm at the Santa Ana Book Store, if you have not been counted, and tell him about it. He will notify a census enumerator, and he will look you up.

BOY SHOT BY UNKNOWN MAN—WILL LIKELY DIE

OAKLAND, May 16.—The police are searching for a man who shot Leslie Herbert, aged 19, probably fatally wounding him, and who fired at Frank Lutz here today. The boys were driving in a buggy. Herbert's hat blew off. When he alighted to get it, a man on the curb fired pointblank, the bullet striking him in the abdomen. Lutz rushed to his assistance and was also fired at by the assailant who then cried: "I thought you were footpads," and turned and ran. It is stated at the emergency hospital that Herbert will die.

DISTINGUISHED MEN IN HIS PERSONAL SUITE

King Pleased That Roosevelt
Was Named as Envoy for
Edward's Funeral

LONDON, May 16.—Colonel Roosevelt has arrived here. He was met by military and municipal officers. He viewed King Edward's body and was presented to King George who expressed pleasure that Col. Roosevelt was the American representative at the royal funeral.

The King appointed Lord Dundonald and Commander Cunningham Graham to take charge of Col. Roosevelt's entertainment and to serve as his permanent suite during his English visit. This is an unusual mark of royal favor.

The King sent a royal carriage to take Col. Roosevelt to Ambassador Reid's home. The morning papers printed columns in praises of the American.

Troops are pouring into the city in preparation for the late King Edward's funeral, on May 20. His body will be taken to Westminster Abbey tomorrow. The royalty and nobility have already gathered. Precaution is taken to guard the royal visitors.

Americans are held responsible for the ridiculously high prices being paid for points of vantage from which to view the funeral cortege. One man is reported to have paid \$5000 for the rent of a store room along the line of march.

GAVE HIS LIFE TO SAVE THAT OF HIS BROTHER

JAUREZ, May 16.—American Vice Consul John W. Gourley died of smallpox at noon today. Gourley's brother is immigration inspector. He contracted the disease. Gourley nursed him until well, then contracted the smallpox himself, with fatal result.

VALLEY WILL HAVE EXHIBIT

La Habra Farmers Are to be on
Hand for 1910 Carnival
of Products

La Habra Valley is going to be well represented at this year's county Carnival of Products. The valley is a thriving agricultural section, and its exhibits will be of the best. Col. O. H. Coulter, chairman of the executive committee of the Carnival, has been asked to be present at the meeting of the La Habra Valley Farmers' Club next Saturday evening to talk over the matter. This will be the first year La Habra has been in attendance at the carnival as a section.

PYTHIAN KNIGHTS' BIG CONVENTION

1200 Meet at Santa Cruz in
Assembly to Last for
One Week

SANTA CRUZ, May 16.—With the arrival of four hundred Knights of Pythias and Pythian Sisters from Southern California, a number of delegates from the grand lodge of the Knights of Pythias and the grand temple of the Pythian Sisters, the California Brigade Encampment was increased today to twelve hundred. Santa Cruz is lavishly decorated in honor of the visitors.

All delegates are making their headquarters at Cottage City, on the beach. Brigadier General Driftell of Los Angeles, is commanding the first regiment, comprising the South Bay section; Colonel Kenton Miller is in command of the Southern companies; Lieut. Blackwell is commanding the Central California delegations, and Major Weller those of Northern California. The convention will last throughout the week.

WIND SWEEPS BAKERSFIELD

Wall Shaken Down—Doors and
Windows Broken—Quantity
of Oil Escaped

BAKERSFIELD, May 16.—A terrific windstorm is sweeping this section today. Damage aggregating between \$10,000 and \$30,000 is reported in the oil fields. Five thousand barrels of oil are said to have escaped from the Lake View gusher because of the ravages of the storm. The wall of the Airdome Theater in Bakersfield is blown down and many doors and windows have been broken. Many stores have closed their doors and windows, and have sealed them to prevent the dirt ruining their stock. Precautions have been taken in the oil fields to prevent the starting of fire, which would do millions of dollars worth of damage. A similar storm last fall ruined fifty-two derricks, with a damage of \$20,000.

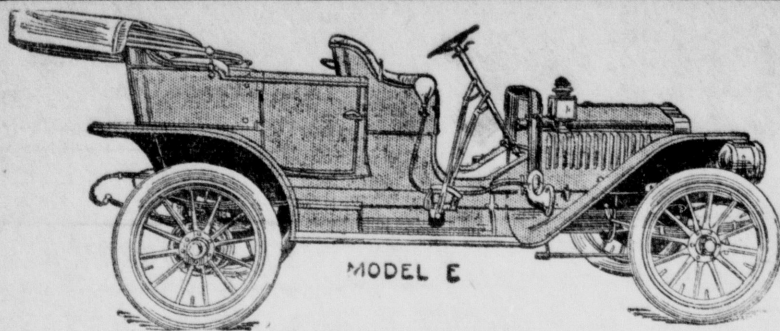

FIRST FRUITS OF G.O.P. CONFERENCE

Cummins Amendment to Strike
Commerce Court From R.
R. Bill is Defeated

WASHINGTON, May 16.—Senator Cummins's amendment to strike the commerce court section from the railroad regulation bill was defeated in the Senate today by a vote of 37 to 28.

This action is in line with the agreement said to have been reached in the conference between President Taft on Saturday night, when it is said regulars, insurgents and near-insurgents were brought near enough together to insure a working majority in the Senate on the railroad bill and other administration measures. Certain modifications of the railroad bill were made which may insure its passage.

Control on left-hand side--shaft drive

One of the smaller reasons—but a mighty good one—for choosing the Reo is that the driver's seat is on the left-hand side of the car.

That's where it ought to be. You are driving along a street and want to stop somewhere. You don't want to turn around—besides, laws are constantly being passed compelling automobiles to stop at the right-hand curb. You don't want to climb over the levers and extra tire. You

Neither does the other front-seat passenger. The left-hand drive avoids all this difficulty. Easy to get out—for both passenger and driver. Every detail of the Reo is thought out in this same careful way. Every cent counts for genuine service. Come let us show you the practical value of the left hand drive and the thoroughbred qualities of the Reo.

Santa Ana Man to Watch Paving at Anaheim—Mother Colony Notes

ANAHEIM, May 15.—The Fairchild-Gilmore-Wilton Paving Company will commence this week paving the streets for which bonds have been issued as a result of the recent election. Robert Cogburn of Santa Ana, has been appointed inspector. He superintended the recent paving work here.

At a special meeting of the Retail Merchants' Association held at Judge Howard's office Thursday evening it was decided by a unanimous vote that Anaheim leave no stone unturned to secure the 1911 K. of P. Grand Lodge.

One of the greatest questions, however, is how to entertain from 5000 to 10,000 people for a week in this city. To surmount this difficulty the Merchants' Association has secured a donation of \$10,000 for a live hotel man who will add enough cash to give Anaheim a modern hotel, which will compare favorably with the best in Southern California, outside the larger cities. It is understood that the proposition will be submitted to several well known hotel men in the state and a first-class hostelry for this city will likely be the result.

S. W. Douglas, county secretary, and about twenty members of the county Y.M.C.A. are spending mornings at Mt. Wilson for the purpose of obtaining a good view of Halley's comet.

Mrs. Stephen Nagel and daughter, Caroline, who visited here and in Los Angeles for five months, left last week for their home in Chicago. Mrs. Nagel is the mother of A. Nagel, a merchant of this city.

Prof. Tople, principal of the local schools, will leave at the close of the school year with his family for Santa Ana.

Anaheim will send a team composed of George Chambers, Ernest Miller, Walter Cadman and Evelyn Finney, to represent the local High School in the annual county forensic contest, which will be held in Orange on the evening of May 21. Every high school in the county will be represented.

Miss Lulu Goble has completed taking the school census and Anaheim has made a gain of thirteen children of school age and a total of sixty children over last year. The total of the children in the district for 1910 is 1167. Of this number 861 are of school age, and 306 are under five years.

The new well being drilled for the Union Brewing Company has reached a depth of 120 feet and now contains thirty-four feet of water. It is expected that when completed it will develop 100 miner's inches.

The brewery is also installing between \$1000 and \$1500 worth of new machinery and is preparing for a heavy year.

Mr. and Mrs. C. E. Ramello, accompanied by Mrs. Weaver and son, Oliver, have left for Kansas City.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach is utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you will find it in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

OLD NEWPORT NEWS BUDGET

Miss Ida Segerstrom Registers In Los Angeles As a Trained Nurse

OLD NEWPORT, May 14.—Miss Ida Segerstrom is now in Los Angeles, where she has registered as a trained nurse, and is ready to enter upon her professional duties whenever called upon. She finished her extension course at the training school in the early spring and then spent some time at home resting up and renewing old acquaintances. We regret her leaving but can extend our hearty congratulations and good wishes for her future success.

Mr. and Mrs. Lee Brooks gave a party on Wednesday evening to friends of this community, and to some from out of town. A delightful evening was spent and delicious refreshments of sandwiches, olives, salads, cake and ice cream were served later.

The Old Newport school went to Balboa on a picnic Saturday. An early start was made and the hay load reached the destination all in good time. The teacher, Miss Annette Deardorff, had an appointment in town and could not accompany the youngsters, so Mrs. R. L. Tedford and Mrs. Burris acted as chaperones. A delicious basket lunch was partaken of by a hungry crowd at noon. Boating, racing, swimming and sand digging was the order of the day and much indulged by several and various ones of the crowd. All returned in the late afternoon very tired and much sunburned, but happy over the success of the outing.

A surprise party on Will Segerstrom was given by his sisters. He was taken completely unawares, and the company found him in his everyday clothes, just about to retire for the night. The crowd filed in and was soon deep into games, music and conversation. Refreshments of strawberries, cake, coffee, and cocoa were served. A fine time was had by all, for as one expressed it, "You always have a good time at the Segerstroms", for they make you have a good time in spite of yourself."

Mrs. C. M. McClintock, her daughter, Mabel, of Los Angeles, and her sons, Phil and Clare, attended the wedding of Ray McClintock and Miss Cecil Wagner of Santa Ana.

Mr. and Mrs. Sam Manderscheid gave a dance Friday night. A crowd of friends and neighbors were out to enjoy the good time.

Al. Warren and wife went to Fullerton for a week-end with Mr. and Mrs. La Van, formerly of Santa Ana.

Mrs. Frank Bradbury's brother, Mr. Leadham, has been making her a visit of several days.

Mrs. H. O. Merritt had the unhappy luck to severely cut her finger. She was using lemon juice and salt to remove rust stains from some white goods, and in cutting open a lemon, the fruit rolled, letting the knife down onto her finger with full force, cutting it to the bone.

Mr. and Mrs. H. D. Meyer gave a dance last Saturday night to friends and neighbors.

Mr. Hannah has been in Los Angeles and Ontario the past week on business. His wife accompanied him.

The foreman of the Japanese working on Mr. Von Schrittz's ranch has returned to Japan.

Mrs. Perry Neeley and daughter Beatrice went to Lankershim Wednesday to attend the wedding of Miss Mabel Dougherty.

PUBLIC LIBRARY SHOWS ART WORK OF SCHOOL GRADES

Orange News: A neat collection of art work of the sixth and seventh grades has been on exhibition at the public library the last few days. The work is in water color and charcoal and consists of drawings from still life and borders designed from these drawings. There is also a collection of more advanced work of the high school pupils and some of the specimens are beautiful, and highly creditable both to the pupils and teachers in charge of the work.

City Trustee Wm. Gregg left today for South Omaha, accompanied by his son. They will go via Seattle and the Canadian Pacific and will later join Mrs. Gregg on the Great Lakes, from where they will continue their journey down the St. Lawrence river, and will visit at eastern points. They expect to be absent about three months.

Mrs. A. T. Vance left for the east yesterday expecting to stop in Colorado at different points and from there she will go to her old home in Kirksville, Mo., to visit with her parents.

WHO'LL GET THE OVERLANDS? CAR LOAD OF OVERLANDS

Now Ready for Delivery--Won't have a Better Chance to Furnish you One than we Now have

The Average Sales by Dealers on Overland Cars now exceeds \$200,000 per Day—The Reason Why.

Matchless Simplicity

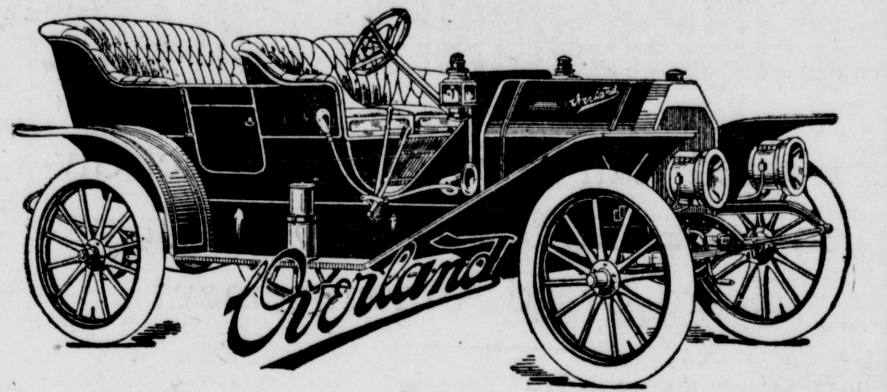

Overland cars are the choice of hundreds of experts. But they appeal above all to men who run their own cars. That's why you see so many on Sunday afternoons.

There is no other car which is nearly so simple. Three of the models operate by pedal control. One simply pushes pedals backward or forward to get on low speed, high speed or reverse. It is as simple and natural as walking.

The designers of the Overland have immensely reduced the usual number of parts. One piece is made to take the place of many. This reduces the danger of trouble.

The Minimized Cost

Our enormous production and our modern machinery enables us to make cars for much less than others. In the past year alone we have cut our costs 20 per cent. No other maker attempts to give what the Overland gives for the money.

The 25 horse power Overland Roadster sells for \$1100. It has a 102-inch wheel base. The same car with a tonneau sells for \$1200.

A 40 horsepower Overland with a 112-inch wheel base sells for \$1400.

The best of the Overlands—embodying all that any man can want—sells for \$1650.

And each of these prices from the lowest to the highest includes 5 lamps, magneto, generator, tools, tire repair kit, pump and jack.

The Overland Roadster, Model 38. Price \$1100

This is the new car of the year. It has power, speed and never failing quality. On account of its simple control it is the ideal car for women.

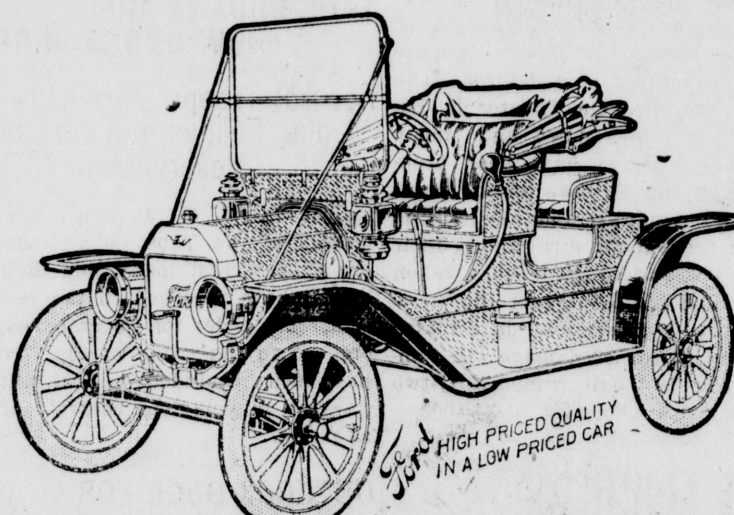

Overland Delivery Wagon PRICE \$1200

This is the car thousands of people have been waiting for. A light delivery wagon, combining reliability, economy, ease of control and carrying capacity. Carrying capacity 800 pounds exclusive of passengers. Speed range from 4 to 40 miles an hour. Carrying government mails it has actually done the work of three horse wagons.

This is a real automobile, a high class easy riding car far superior to any of the ordinary delivery cars.

Facts From Ford

We have the famous Fords now for immediate delivery. Nothing cheap about them but the price. A Ford Model T, 5 passenger touring car is the greatest family car on the

market. The long wheel base, the special spring construction, all combine to make it extremely easy riding and "Ford policy" guarantees durability and efficiency. Fords are the most economical cars, mile for mile, on the market.

Ford Roadster Fully Equipped, like cut, \$990.

Equipment includes speedometer, wind shield, gas lamps and generator, magneto, pump, tools and repair kit.

REMARKABLE SHOOTING DONE BY SANTA ANA RIFLE CLUB

The Santa Ana Rifle Club's practice shoot last Saturday developed some remarkable shooting. Ten out of the fifteen men who took part in the shoot made scores of 60 or better on the 200, 300 and 500 yard targets.

The showing of these ten men compares favorably with any ten-men team in the country.

Martin and Frambes had a pretty fight for first place, Martin winning by one point. His score of 66 out of 75 possible points is class, to say the least.

The shoot for the J. A. McFadden gold medal will be held on Saturday, Sunday and Monday next.

The firing is faster and more satisfactory now that the men have their

own rifles. Hitherto two or three men have been using the same rifle.

Saturday's scores follow:

STUDENTS SECURE GOOD POSITIONS

Dale Peters, graduate of the '08 class who now has a good position with the Wells Fargo Co., San Diego, made a week end visit to Santa Ana and called at the Business College

Saturday. Lewis J. Tillotson, of '08 class who is now attending Throop Polytechnic school, visited the College Friday and renewed acquaintance with his former teachers.

Miss Carrie Seaton, of last year's class who went from school to a position in the First National Bank, now has a permanent place with the Commercial Bank of Santa Ana as bookkeeper.

Miss Haskins, a former graduate, accepted a position with Hankey & Congdon's garage today.

Mrs. Ida M. Taylor, who recently

completed her course in the Business department and has been working at the Courthouse temporarily, was placed in a permanent position as bookkeeper and stenographer with the Guggenheimer Packing Co. last week.

Miss Kate White, of last year's class, was sent to a position with the Dean drug store last week.

Miss Willie White, who just completed a shorthand course was sent to Los Angeles last week where she is now holding a good position as stenographer.

Miss Nannie White, a recent graduate of the Bookkeeping department, was sent to a position as bookkeeper for Ahlborn & Raymond Department Store, Anaheim, at \$50 per month.

Miss Rosamond Rice, a student in the shorthand department went to Los Angeles Thursday with credentials from the school and secured an appointment as Secretary to the principal of the Los Angeles High School. She begins her duties June 1st.

Rehearsals for the College play are progressing satisfactorily. The cast of characters are developing unusual strength for amateurs, and the coach, Professor Wallis, of Los Angeles, predicts that the play will eclipse anything yet given by the Business College students.

Attorney Horace C. Head addressed the student body last Friday on the subject of Commercial Law, department of real estate. His lecture was replete with information and proved most helpful to those who are pursuing the study of this important branch.

Miss Mattie Abbot, of the shorthand department, goes this week to a civil service position with a post-office in the northern part of the state.

5 TO 3 AND SIX STRAIGHT

Santa Ana Team Defeated Long Beach on Beach Grounds Yesterday

(By Sunny Jim.)

Santa Ana made it six straight when Long Beach was defeated on the beach grounds, 5 to 3, yesterday.

The locals opened up on Cornet in the first inning, and before Myers took his place, Santa Ana had four runs to the good. Stone started on the mound for the Yellow Sox, but after the sand crabs had gathered three runs off his delivery, he was taken out. Hinrichs, who replaced him, did not allow another run.

Robinson's and Cline's hitting were the features of the game, the former getting a home run and a three bagger, and the latter a two-bagger and two singles.

Redondo, having won their game against the McCormicks, is still tied with Santa Ana for the pennant.

Redondo will open here next Sunday, when the hottest contest of the season is expected, as the winning of next Sunday's game will put Santa Ana or Redondo in the lead for the pennant.

DECEIVING THE PUBLIC

Again the false and misleading headline gets in its work. "Emasculated" was the word that informed the public that the president's railroad measure had been torn to tatters in the house, and that really there was nothing left of it. This was a false and fraudulent attempt to mislead the public, and of course it worked to a charm with those who looked no further than the headline. But now comes Taft in his Passaic speech and in discussing this same railroad measure, takes a fling at this kind of journalism. He puts us on our guard against the papers that practice such devices, when in referring to the bill he says:

"It has been amended in both houses and with that freedom of touch for which headlines and correspondents are so noted, we have been told with much emphasis that the administration bill has been emasculated in both houses." He then proceeds to show that this is false, further saying: "The bill has not been emasculated in either house, and it contains almost all the remedial features of the original administration bill, and those things omitted are neither substantial nor vital."

Further comment is not necessary, except to suggest that an "exclusive" Ananias club should now be organized by Taft to be composed entirely of the correspondents and headlines of the trust newspapers.

Since the delivery by the president of his Passaic speech, the house has passed his railroad bill without a dissenting vote, thus redeeming another of the platform promises of the G. O. P. This cannot but be gratifying to the administration and to true Republicans everywhere. Especially is this so as the Democrats made their fiercest fight against the provision that is by Taft regarded as the most important of any in the bill, to-wit, the court of commerce that it creates for the purpose of hearing appeals from the decisions of the interstate commerce commission. After the bill had been reported to the house, they tried to have it recommitted with instructions to have this clause stricken out, but the motion was lost by a vote of 157 to 176. This part of the measure, if it becomes a law, will provide for the disposition of cases without the delays that railroads have so artfully connived at in the past. It will insure the speedy determination of disputes and clear the way and provide the machinery for the transaction of business that heretofore has literally clogged the wheels of government and been one of the chief reliances of the interstate railroads. While the matter was pending, they had the advantage of the situation and the longer it could be kept in court the more they would profit by having a free hand until it was decided.

Other features, for instance the restrictions as to bond issue, the long and short haul, etc., are very important, but would be comparatively useless without the commerce court to give them speedy effect. The measure is of vast importance to all parts of the country and constitutes a long stride toward getting interstates commerce business on a safe and sane footing.

VERY INTERESTING

If the Illinois Democrats continue to confess there will surely be some lively times in the sucker state before long. This outright purchase of a seat in the highest legislative body we have, if made plain, will stir things as they never have been stirred before. It will also furnish a strong argument in support of the contention of the Lincoln-Roosevelt Republican league in this state for the adoption of a constitutional amendment providing for the election of United States senators by popular vote. Incidentally it will also sustain the League in its efforts to have a statewide advisory vote on the same subject.

But going back to Illinois, we find another question raised, to-wit, that of local option. It is claimed that the same legislature that elected Lorimer was offered \$75,000 to pass an anti-local option bill. This is at least interesting and (coming back again to

California) we find that local option, after a hard fight, was defeated at the last session of our own legislature.

The Political Watchtower

Clinton Imes has announced himself as a candidate for the Republican nomination for constable from the Santa Ana township. He has lived in this township for many years, and is widely known. He expects to present his cause to the voters in person and ask them to support him for the nomination he seeks. He takes this means of letting his friends know that he is in the race, and in it to stay.

Notice for Bids

THE "MACHINE" IN EVIDENCE AT ANDERSON'S HEADQUARTERS

"Johnnie" McKenzie a Striking Parallel to Our Own "Johnnie" Morrison—How the Public Pays the Salaries of "Machine" Workers

BY FRANKLIN HICHBORN

SAN FRANCISCO, May 16.—Politics, the saying goes, makes strange bedfellows. A visit to Alden Anderson's campaign headquarters in this city emphasizes the point.

The first light on the situation which the Anderson headquarters give forth, comes through Johnnie Lynch, the man in charge, who glories in his "machine" connections. Leon Denny appears to be second in command. Mr. Denny is a former Dan Burns manager; he is also a former Mayor P. H. McCarthy manager. To be sure, Mayor McCarthy is a "Labor Unionite" and Denny a Republican, but little differences of this sort cut no figure in machine councils.

George Adams also bulks up well. Mr. Adams was quite prominent in the Abe Ruef circle of a few years back, as registrar of voters. One also meets at the Anderson headquarters Charlie Spear and Johnnie McKenzie and others of the old guard, all busy in the work of campaign management by which the powers that are hope to nominate Mr. Anderson.

And Alden Anderson is as clean-cut and likeable a gentleman as ever played the title role in the tragedy of "The Good Dog Tray."

Politics do, indeed, make strange bedfellows.

Johnnie McKenzie in the same political bed with Alden Anderson, illustrates this very well. It also illustrates how the "machine" feeds the political agents, who, under the name of "bosses" work for it.

Mr. McKenzie began his career as "machine" manager or "boss" at San Jose, Santa Clara county. He did very good work for the machine down there, and very bad work for Santa Clara county. But man must have bread to live, and McKenzie had to be compensated. The Southern Pacific Railroad Company and other machine beneficiaries never think of such a thing as paying their political managers out of their own treasuries. The public is made to pay them.

The Santa Clara county public paid McKenzie to "boss" the county. The "machine" made McKenzie game warden of Santa Clara county. This gave McKenzie excuse to draw seventy-five dollars a month from the county.

Mr. McKenzie did not make a particularly good game warden. A suggestion lazily made on a hot afternoon, that all blue jays should be killed, earned him the nickname of Blue Jay Johnnie. But that is another story.

In Santa Clara county McKenzie finally ran his course, as "machine" managers, or "bosses" are sure to do sooner or later. But he had shown himself a valuable man. The "machine" accordingly removed him to San Francisco. In San Francisco he had to be paid, and in San Francisco there were no blue jays needing attention. But the "machine" had other jobs. McKenzie was made a state

harbor commissioner. His previous experience as a suggester that blue jays be killed no doubt eminently fitted him for the duties of a harbor commissioner. The harbor commissioner's job gave Mr. McKenzie excuse to draw \$3000 from the state while he did politics for the "machine."

Mr. McKenzie's term as state harbor commissioner having expired, another place was provided for him, that of commissioner of the Bureau of Labor Statistics. This appointment gives Mr. McKenzie excuse for drawing \$3000 a year from the state while he "does politics" for the "machine."

"Doing politics" for the "machine" just now, means crafty endeavor to secure the Republican gubernatorial nomination for Alden Anderson.

The state of California is paying Mr. McKenzie \$3000 a year while he labors for Mr. Anderson's nomination.

If, later, the "machine" decides that Curry, or Stanton, or whoever else may be in the running, has better chance than Anderson to defeat Hiram Johnson at the primaries, Mr. McKenzie will be put to work for that candidate.

One good thing about these state-paid political managers, they mind.

But the system by which the "machine" makes the state pay the wages of the "machine's" political workers costs the people of California a deal more than the mere salaries. For example:

A boatman, attempting to land from a row-boat at the San Francisco water front not long ago, to steady himself pressed his oar against one of the "solid concrete" pillars which support one of the state's model wharves. The oar went entirely through the pillar. That "concrete pillar" was found to be innocent of anything more substantial than rotten wood. Investigation showed many others like it.

Those "rotten pillars" had been constructed under state supervision, but supervision directed by machine influence and domination. It is said that the supervising engineer who passed upon the work was a shoemaker who had been elected to the Assembly. As assemblyman he made himself useful to the "machine" and had to be rewarded—at the state's expense, of course. So the "machine" made him supervising engineer of the concrete work on the San Francisco water front.

This is but one of the results of the system by which the "machine" makes the state pay the expense of its political agents. Indeed, there is now scarcely an appointive commission in the state that does not feel the paralyzing effect of machine influence and domination.

The common sense of it is that the well-being of the state—the financial, dollar-and-cents well-being—demands that commissions be made up of competent men, who will attend to the state's business rather than the

political interests of the big corporations.

But does any one suppose that a machine-named governor will rid state commissions or corporation agents of the McKenzie type? Does anyone suppose, for example, that the likeable Anderson would sacrifice these "machine" agents who made the "machine" possible? Not at all. The McKenzies are earning their right to continue drawing their wages from public treasuries by devoting their time to the "machine's" interests, which just now are identical with Anderson's political interests.

At the August primaries the people will show what they think of the system.

FUNERAL SERVICES OF MRS. A. E. UTT AT TUSTIN

The long time friends of Mrs. A. E. Utt, who died at Tustin last Friday after a long and useful life of 76 years, gathered in force at her late residence in Tustin at 10 o'clock this morning at which hour her funeral took place. Masses of lovely flowers from friends far and near attested the regard felt for this woman of high character.

The funeral services were conducted by Rev. J. H. Garnett, the pastor of the First Baptist church of which Mrs. Utt was a devoted member. Rev. Mr. Kennedy, the pastor of the Tustin Presbyterian church assisted Dr. Garnett.

Mr. and Mrs. W. F. Shatto of Tustin sang several old sweet hymns among these being "Asleep in Jesus" and "Lead Kindly Light." At the Santa Ana cemetery where Mrs. Utt was buried by the side of her husband who died twenty years ago, Mr. and Mrs. Shatto sang "Abide With Me" and "Blest Be the Tie that Binds." The pall bearers were Messrs. Sherman Stevens, Samuel Tustin, Perry Lewis, Louis Moulton, J. P. Joplin and Dr. J. P. Boyd.

Many W. C. T. U. women were present at Mrs. Utt's funeral and at its close they formed in two lines through which the casket of the pioneer White Ribboner was reverently carried.

Jennings, 814 East Third street, Santa Ana, Cal., says: "About fifteen years ago while living in Michigan, Doan's Kidney Pills were highly recommended to me by a party who said that they had cured him of lame back from which he had suffered for years. This favorable report led me to try Doan's Kidney Pills, as I was troubled by a pain and lameness in my back which I was certain was due to weak kidneys. My trial of Doan's Kidney Pills resulted in such positive relief that I was given great faith in them. I have recommended this excellent remedy since then to every one I have heard complaining of backache or any other symptom of kidney complaint."

OUR WASHINGTON LETTER

WASHINGTON, May 1.—Moving pictures showing the operations of the government departments at Washington will soon be on view in New York, and the films that are being made will probably become available for use in other cities later.

Dr. Henry Leipziger of the New York Board of Education is responsible for the idea as well as for its practical application. It is the purpose of the board to entertain on two nights of every week, the parents of the children attending the public schools of that city, by illustrated lectures on current topics. The scheme has worked well so far as it has been developed. By its means the fathers and mothers of the poorer, and generally illiterate class, have been shown the workings of the city government—its parks, its schools, its water supply, its sewer system, and the thousand and one other details that enter into the every day life of a great city.

It has been found that the information thus absorbed by the parents has percolated through to the children. It is now proposed to extend the subjects of the lectures to national affairs. In a recent visit to Washington Dr. Leipziger met with the heartiest co-operation by the Treasury Department. He made arrangements whereby he will be able to show on his moving picture screens just how the government makes its money. The copper, silver or gold bars from which the coins of the United States are minted will be shown in the various processes through which they must go before they are in shape for circulation as money, and the Bureau of Engraving and Printing, which produces the paper money of the country, will also be illustrated with all its intricate machinery in operation. The revenue cutters are to be shown in motion, and the life-saving service is also to be illustrated in action. The Treasury Department will designate one of its crack life-saving crews to operate before the moving picture apparatus to demonstrate the work which this branch of the service is doing.

Scenes of every-day life on board ships of the navy and at army posts will also be photographed. It is thought that these pictures will not only show the people how their money is being spent by the government, and for what purposes, but will give them a clearer insight into national affairs. It is proposed that when the pictures are exhibited some expert from the government service will deliver an explanatory lecture regarding them.

"Sesa Internancia Kongress de Esperanto Washington August 1910." Every Esperanto enthusiast in the world will read this some time or other between now and August 14 next. The next "world language" congress is to be held in Washington August 14 to 20, when 2500 delegates bent upon telling what they know of

Esperanto will gather to coin more words, and maybe unearth another tongue or two that can be utilized in making it a "sure-enough" international language.

A new wrinkle has been adopted by the congress this year to advertise the coming session. Stamps have been printed in the color of the Esperantists. On the face of each is a white globe, representing the world, with a green star in the center, and above and below appears an announcement of the coming session, in Esperanto. These have been placed on sale and business firms all over the country will be asked to place them on their correspondence as they do Red Cross stamps. Dr. Edwin C. Reed, an Esperantist leader in this country, states that Esperanto is taught in more schools and colleges now than at any time since the movement was inaugurated. Recently the Maryland legislature put the language on the list of subjects to be taught in the schools of that state.

Secretary of Agriculture Wilson has lifted the lowly muskrat into prominence. He declares the muskrat at the present time is of more importance commercially than the beaver or fur seal. The most important points to be considered in dealing with the muskrat as a commercial proposition, are its wide distribution, prolific breeding and extreme hardness. The muskrat is distributed over the greater part of North America, from the southern border to the barrens of northwest Canada and from the Atlantic to the Pacific. His fur is glossy and very dense and is used extensively by fur dressers and dyers, being made to imitate the more costly furs.

The skins sell for about 35 cents apiece and the carcasses bring \$1 a dozen. The first heard of the animal as a food is from stories of the Indians, then the white trappers and settlers found the flesh palatable, until now there are regular markets for the "marsh rabbits," in Baltimore, Philadelphia, Wilmington and a great number of western cities, the dealers having ready sale for all they can supply. Muskrat is said to be the favorite dish served at dinners given by church societies in Delaware and Maryland, where the animal abounds, and annual muskrat banquets are a feature with certain gun clubs in the West.

Distribution of the \$5,000,000 recently appropriated by Congress in settlement of the claim of the Cherokee Indians was begun by the Treasury Department the other day. It involves drawing 30,850 warrants. Each claimant will get about \$133. The warrants are being signed and issued at the rate of 1000 a day, so that the distribution will occupy the whole of the present month.

THE WAY OUT of a SOCIAL DILEMMA

GETTING a fourth hand for "bridge" is only one of a thousand social uses of the Telephone, and Telephone Service promotes sociability and good fellowship because it brings neighbors closer together. Your friends all live within talking distance.

It is the same with your out of town friends—the universal service of the Bell System makes them your neighbors, too. Your voice can reach all by means of the Bell Long Distance Service.

LOS ANGELES PRODUCE MARKET

Outside the heavy trading on the market yesterday morning, there were few, if any, features. The price of eggs advanced 1 cent, putting candled stock up to 27 cents and case count to 24 cents a dozen. Demand and smaller receipts were given as the cause of the increase. Arrivals totaled only 346 cases yesterday. A few eggs were also received from Petaluma, and they were very firm.

The San Francisco price on butter is up to 27 cents a pound. Local butter was quoted at 28½ cents but jobbers refused to sell any of their stock of creamery extra butter for less than 30 cents yesterday, and this created a deadlock, offers of 29½ being the highest of the day. Even firsts were not obtainable at 29 cents. Receipts of the day were 19,504 pounds.

The abrupt rise of cheese in the North has caused the very firm market existing on fresh full cream in Los Angeles to become more firm, and dealers asked up to 17 cents for their stock. Eastern daisy and long-horn cheese were the chief sellers in the morning. Receipts of cheese were the heaviest in weeks. They totaled 20,146 pounds.

Potato arrivals were 584 sacks. The demand for locals is on the increase and several cars were shipped north and to Arizona and Nevada. The new spuds hold at \$1.50 per hundred. Sweet potatoes on the market are entirely local stock. They are small as far as size is concerned and are bringing \$2 per lug box.

Onions were in fair call. Prices were unchanged and no receipts reported. The current demand on beans was exceedingly light. Receipts were 400 sacks.

Receipts of cherries totaled more than 800 boxes. Prices on red cherries were down to 7 cents and on whites to 5 cents a pound. Best grades sold a trifle above these figures. Strawberry receipts were large and prices held up pretty well with the good call. Loganberries were down to 15 cents and gooseberries to 7 cents a pound.

Fish receipts were large and the demand was the best of the week. This helped to clean up the supply pretty well. A large quantity of surplus fish is being salted for winter trade and then being placed in cold storage. Shad and catfish from the north were in good call.

NOTICE TO VOTERS

—Under the state law a new registration of voters has to be made every even numbered year. All voters must register prior to July 27th, 1910, and must have declared the political party with which they intend to affiliate (as provided in Sec. 1366 a. Political Code), who desire to vote at the Primary Election to be held August 16th, 1910. If you do not so register and so state your party affiliation you cannot vote at this primary election at which all State and County Officers will be nominated. EARTHQUAKE FELT HERE

Came Yesterday Morning at
7:50 O'clock—No Damage
Done by Shock

Santa Ana, in common with most of Southern California, noted an earthquake shock yesterday morning at 7:50 o'clock. No damage was done anywhere.

The shock was of a rolling nature, and lasted several seconds. In some houses the shock seemed much longer than elsewhere, the vibration of the buildings doubtless making the shock seem longer than it was.

A few bricks were dislodged from the top of Gus Anderson's chimney at 918 East Fifth street, but the bricks were about ready to fall any-

how. About ten loose bricks were thrown off McClain's chimney at Old Newport.

Dishes, windows and doors were rattled. Those in the streets saw the poles and trees tremble.

At a few minutes before 1 o'clock yesterday there was another shock, which was lighter than the 7:50 shock.

El Modena reports a number of clocks stopped. No damage was done.

San Juan Capistrano felt the shake, but suffered no damage.

**STANLEY'S TRIAL IS
TO BEGIN TOMORROW**

Wild West Man is Charged
With Aiding in Assault
Upon Kogler

Judge Densmore of Riverside will preside in the Superior court tomorrow for the trial of Dick Stanley, charged with assault with a deadly weapon upon Walter Kogler, son of Rev. Kogler of Orange. Judge West is sitting on the Riverside bench in a case in which Judge Densmore could not sit.

Stanley conducted a Wild West Show. Young Kogler and other boys were near the tent. With some of these boys Stanley and his men had trouble. Stanley gave a signal for a general mix-up, and one of the showmen struck Kogler over the head with a club. The showman escaped. Stanley was arrested and held for trial on the felony charge.

**FLANNERY'S TRIAL NOW
ON—CROWDS ATTENDING**

SAN RAFAEL, May 16.—That ex-Police Commissioner Harry Flannery of San Francisco, shifted patrolmen to fit in his plans of protection of the poolroom interests, was the testimony today of "Kid" Abbott, whose alleged confession of poolroom operations resulted in the indictment of Flannery on the charge of grand larceny. Flannery's trial began today and crowds attended.

**DEATH RESULTED FROM
CORN PLASTER INFECTION**

LONG BEACH, May 16.—Mrs. E. M. Holmes, No. 1815 East Fourth street, died Saturday night as the result of an amputation operation. Several days ago Mrs. Holmes used a corn plaster on her foot. Later, in removing the plaster, the corn became infected. Gangrene set in and spread upward into the leg so rapidly that an amputation was deemed necessary. Friday the leg was taken off above the knee, but the poison had got into the system and death resulted.

"There will be a balcony scene in this play," "I dare say," said the cynical manager, "and there'll probably be a scene in the gallery and parquette, too, if you ever try to put it on." —St. Louis Star.

W.C.T.U. HOSTS WERE IN LINE

Marched With Flying Manners
Through Streets of the
Angel City

Saturday was the banner day of the state convention of the W.C.T.U., now in session at Los Angeles, when a monster parade took place, reaching for blocks, and including the W.C.T.U. delegates, over twenty Loyal Temperance Legions, headed by the Examiner's Newsboy Band, each waving banners, and giving their rally cries and salutes, boys' bands scattered through the line, hundreds of W.C.T.U. workers led by the Crusaders of 1873, and bands of children from the Japanese and Chinese Loyal Temperance Legions, representatives of the Young People's Branch and Anti-Cigarette workers, all marching for blocks, cheering for the White Ribbon cause. Little three-year-old Lawrence Wright, attired as Uncle Sam, pedaled along on a gaily decorated velocipede, bearing a banner which said, "On to the White House to Route Saloons." After the parade through the main business portion of the city, the procession marched to the church, which was crowded to the doors. In the church the scene was brilliant and interesting, as 500 boys and girls, all waving green, yellow and white pennants and carrying banners, sang their welcome song. A flash light picture of the scene was taken.

The parade and program was conducted by Mrs. Dayton Blair, L.T.L. secretary, of Los Angeles county, and through her untiring efforts was a tremendous success. The singing of temperance hymns, both in English and Japanese, by the children from the Japanese mission, 16 boys and girls, was enthusiastically cheered, and their beautiful banner of white silk, heavily embroidered with chrysanthemums and the Japanese characters of the W.C.T.U., was the envy of all.

The sturdy little chaps from the Strickland Boys' Home, one a mere baby with golden curls and clad in blue jumpers, seriously assured the audience in song that "It don't pay to be bad, and it never pays to drink." Another group of little singers was the Spanish children, whose leader told of the splendid work accomplished by the W.C.T.U. during two months' work in the Spanish quarters, in the decrease of cigarette smoking among boys. The young people certainly furnished a splendid program and showed the marvelous results of W.C.T.U. work.

A cold water banquet was held Saturday evening at 6 o'clock which was largely attended, a number of the Santa Ana ladies remaining for the banquet.

Dr. Locke preached the convention sermon before hundreds of the W.C.T.U. women, in addition to his own

membership, on Sunday evening. His subject was, "What the Liquor Traffic Has Done to Woman, and What Woman Can Do to the Liquor Traffic."

The convention will close tonight with a silver medal musical contest and an oratorical grand gold medal contest. Ben Reiland of Santa Ana, will contest for the musical medal. He will be accompanied by Harry Warner. Miss Mary Cooper of Tustin, will compete for the grand gold medal, and Mrs. Winbiger will sing during the evening.

POMONA COLLEGE PRESIDENT TALKS

Student Body of High School
Addressed by Educator
This Morning

James A. Blaisdell, president of Pomona College, addressed the student body this morning. He first told several jokes, which caused much laughter and applause, mainly because they were personal to the experience of a college president.

He then told of a situation in the Pomona baseball team. The team was without a pitcher. The students were nonplused. But instead of getting someone from the outside, they found a young man from their own number. He told how the young man, after careful training, developed such pitching ability that he has won every game this season. He exhorted the students to develop latent talents and dormant faculties.

Next he spoke of the will power as an agency to develop poor students into fine ones. He also urged a variety of studies and versatility of work.

The address by the Pomona president was one of the most interesting that has ever been delivered before the students.

ORANGE SHIPMENTS

CLAREMONT, May 16.—Shipments of navel oranges from the Claremont Citrus Association have reached, to date, a total of 325 cars for the season. This will approximate the total figure for the winter, as the shipments of the association are about completed.

Mayonnaise Dressing

Mix one-half level teaspoon each of mustard and powdered sugar, one-quarter level teaspoon of salt and a few grains of cayenne. Add the yolk of one raw egg and beat. Now add slowly one cup of olive oil with the juice of one-half lemon and one tablespoon of vinegar. At first add enough oil, drop by drop, until the mixture is very thick, then add the lemon juice and oil alternately, and last the vinegar, being sure not to make it too thin. For some salads, add to this mayonnaise, just before using, one-half cup of beaten cream. Mayonnaise dressing is a valuable element in the diet, especially in the spring, with green salads, and should not be called an extravagance. Children often like it as a sandwich filling, and they need fat in this digestible form.

Salmon Salad

The best brands of canned salmon may be used for salads, but in its season cold boiled salmon will make it finer. Do not break the fish up too finely, but flake it with a fork, discarding any bones or skin. Place in a bowl and mix lightly with a dressing formed with a salt-spoon of salt, half as much pepper, three table-spoon of oil and one of vinegar. Set away to chill. At the time of serving arrange the salmon on a bed of lettuce leaves and garnish with mayonnaise.

The preference is now for individual salads arranged on small plates

and the pink and green of this particular salad is most attractive.

Who Will Get the Piano?

Quite a number are working hard and you had better get in to line or you will get left.

Our piano certificates in 5 and 10 cent denomination are running low, and we would like very much if those holding a number of them would call and exchange them for certificates of larger denomination.
